Gameplay Neo Bomberman Apk is an action maze game that plays just like any other game in the Bomberman franchise. In it, players take control of characters of the same name, the main purpose of which is to destroy all the monsters by placing bombs on the field. Defeating all the monsters opens a level door and takes the players to the next area. To destroy the monsters, players can bomb soft blocks that can reveal useful items. These items include items that increase the number, range or explosion of the bomb, or the speed of the bomb that can be placed at one time. There are also items for passing soft blocks and bombs, kicking and throwing bombs, remotely controlling bombs, or piercing multiple blocks at once. Subsequent levels have other elements such as rescuing other Bomberman characters - who then support the player for the rest of the level - and enemies that can be ridden or run after losing. In battle mode, a player can choose one of ten different characters and compete against three computer-controlled opponents for five rounds in four different arenas.
